The Revolution XT ... Not just another Tile Saw

Tabularasa-Gemini Saw Company Europe is the exclusive distributor of the Revolution XT

REVOLUTION XT

A wet saw that is so clean you can use indoors.
Perfect for all the cuts needed on any type of installation.
Complete jobs faster and easier in all types of material.

- **Specifications** Motor 220V – 2 horse power - Protection IP55
Weight 25 Kilos , Size cm. 68 x 42 x 36
- **The Revolution XT comes with :** Double sided blade - Straight edge keel tool
- **Optional Accessories**
 - 1) **Carriage**
This high quality tool makes precision cutting possible.
With a Vecro top, the carriage accessories can be placed exactly where they are needed. All shapes are possible, allowing the user to make perfectly straight cuts, and even slice off as little as 1/8" without blade wander.
The Carriage Kit comes complete with :
Two 45 degrees angles. Two 30 degree-60 degree angles.
Two 5 foot Rails (24" diagonal capacity). One fence stop.
 - 2) **45 Degree Two Way Edger**
Stainless steel construction.
Gives the ability to cut 45 degree edges, sharp or blunt.
 - 3) **Stand**
Specially made for the Revolution XT to provide proper work height and easy set up.
- **Patented Blades**
With similar construction to your standard high quality 10" tile blade, Revolution XT blades deliver at least the same life span at the same price. The difference is, our blades have no center, and are driven from the outside delivering several advantages:
 - a) The ability to make Straight or Curve cuts.
 - b) Easily cut a slice off the edge of your material.
The blade remains stable and rigid without wandering.
 - c) The ability to have diamond coating on the front and back (with double sided blade).
Making forward as well as backward cutting possible.
 - d) Use the same blade for all materials. There is no need to change blades.
 - e) Material will never glaze over, so there is no need to ever dress the blade.

Double Sided Blade : This blade comes included with the Revolution XT.
Sintered diamond front and back.
Straight cutting as well as tight curve cuts in all materials,
forward and backward. Radius capability of this blade is 3/8".

Standard Blade : Sintered diamond blade.
Straight cutting as well as forward curve cuts in all materials.
This blade is available standard for all the materials or for glass.
