## **THE SUPER SLICER!**

The incredible SUPER SLICER is a device that holds pattern bars and other small items needed for slicing in such a way as to allow repeatedly perfect parallel thin cuts to be made.

Never before has it been easier to increase your production and get the most out of your pattern bars, canes, streamers, rods, milifiori or anything that needs to be sliced. The slices are repeatable without readjustment or individual with precise adjustment.

Although designed for the Taurus Ring Saws, the fixture will fit almost all saws including band saws, trim saws, jig saws, etc.

Once you own this simple, easy-to-use device you will be amazed at how you ever got by without it

## **THE SLICERBLADE!**

The new SLICERBLADE is a saw blade for slicing that only fits on the Taurus 3 and is perfect for using with the SUPER SLICER or wherever a thin cut is desired. The thinnest blade ever developed for the Ring Saw at .040, it will cut fast with minimal loss of material.
